# Introduction

Designing Hope Presents French Fashion is an exceptional event that seamlessly blends the elegance of Fashion with the noble cause of supporting those in need.

This *magnifique* celebration will showcase the latest fashion trends, dazzling runway displays, an atmosphere of *élégance* and sophistication, with an opportunity for some excellent shopping from local retailers and vendors.

We are excited to announce the participation of local celebrities gracing the runway as models, adding an extra touch of glamour and star power to the event. Attendees will not only witness a fashion spectacle but have the chance to indulge in the latest trends and styles.

# About Us

Abuse Hurts is an organization dedicated to assisting tens of thousands of survivors escaping abusive situations for over 30 years.

Abuse Hurts provides resources, referrals, education, awareness, and essential items such as clothing, toiletries, personal care items, bedding, and housewares to women, children, and men in need.

Among its many programs is the compassionate initiative to honor babies who have suffered death by abandonment and advocating for the safe, anonymous surrender of newborns to officially appointed existing facilities.

Abuse Hurts, a grassroots organization, relies on individual and corporate support as it does not receive ongoing funding from any government body.
